FIG. 8 is a block diagram of a system architecture. The system includes a set of business units (Bu1, Bu2) and a set of product lines (Prod1, Prod2, Prod3, Prod4, Prod5). The business units are connected to the product lines. The product lines are connected to a central processing unit (144). The central processing unit is connected to a database (146). The database is connected to a network (148). The network is connected to a set of external devices (186). The system is designed to provide a secure and efficient environment for business operations.
